Review of Pear Concepts

Pear (West Side)	Pear (East Side)
Trees to be removed (without easements) = 12 Trees to be removed (with easements obtained) = 6 Trees scheduled for removal by forester due to poor health = 1 • Assumes trees 8” and larger	Trees to be removed (without easements) = 7 Trees to be removed (with easements obtained) = 4 Trees scheduled for removal by forester due to poor health = 3 • Assumes trees 8” and larger
Homes and private landscaping slightly closer to the road	Homes and private landscaping slightly farther from the road
Will require the removal of fences and planting structures from the right-of-way	May require a retaining wall, and coordination with DTE for proximity to overhead poles
New sidewalk required full length of Pear	120’ of existing sidewalk near John A. Woods will remain
No logical location for a crosswalk at Traver	Crosswalk at Traver is feasible
Would not require a crosswalk at Apple	Would require an uncontrolled crosswalk at Apple

Wider ROW space in this area
