Project Overview

The Division Street Bikeway Extension will continue the two-way bikeway from its current endpoint at Catherine Street to Broadway Street. Initial public engagement and the conceptual design for the project was completed as part of the Downtown Area Circulation Study. The next step is to prepare final engineering plans and prepare the project to go out to bid for construction in 2027.

The bikeway extension, street re-paving, and the installation of a new water main will all occur at the same time, to minimize travel disruptions and detours. These projects will:

- Improve road conditions.
- Replace and upsize an aging watermain from the 1880s.
