

Kingsley Street/Beakes Street

Existing Design

- Key findings:**
- Pedestrian crossings of North Main Street are uncomfortable
 - No gateway features to slow drivers or signal that you are entering downtown

 Conflicts

Project Design Objectives

Reduce Speeds	✗
Create safe connections	✓
Reduce vehicle miles traveled	✗
Improve Water Quality	✗
Improve property access	✗
Create a gateway into the city	✗

Alternative A: Street Right-Sizing

- Considerations:**
- Narrowed cross section keeps traffic calm as drivers enter the heart of downtown
 - Fits within existing right-of-way

Project Design Objectives

Reduce Speeds	✓
Create safe connections	✓
Reduce vehicle miles traveled	✓
Improve Water Quality	✓
Improve property access	✓
Create a gateway into the city	✓
